Serving Notice Period | Last Working Day: 25 July 2026 | Available to Join: Immediately After 25 July 2026

PROFESSIONAL SUMMARY

Automation Test Engineer with 4.7+ years of experience in designing, developing, and enhancing scalable automation frameworks for enterprise web, API, CRM, healthcare, and e-commerce applications. Proficient in **Selenium WebDriver, Java, TestNG, REST Assured, API Testing, BDD Cucumber, Jenkins CI/CD, Agile/Scrum methodologies**, and automation framework development. Proven track record of reducing **regression cycle time by 40%**, lowering **post-release defects by 25%**, and eliminating **60% of manual API testing effort**. Skilled in **Page Object Model (POM), Data-Driven Testing, SQL, Git, Maven, and CI/CD integration**. Microsoft Azure Fundamentals (AZ-900) certified with a consistent record of delivering high-quality releases and zero critical production defects.

TECHNICAL SKILLS

Programming Languages: Java (Java 8, OOP Concepts, Collections, Exception Handling), SQL

Test Automation: Selenium WebDriver 4.x, TestNG, BDD Cucumber (Gherkin), REST Assured, Data-Driven Testing

Testing Types: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, API Testing, UAT, Cross-Browser Testing, End-to-End (E2E) Testing

API Testing Tools: REST Assured, Postman, REST/JSON Validation, Contract Testing, Data-Driven API Testing

Build & Dependency Management: Maven

CI/CD & DevOps: Jenkins, Azure DevOps, Git, GitHub, Branching Strategy, Pull Requests, Code Reviews

Test Management & Reporting: JIRA, Traceability Matrix, Extent Reports, Cucumber HTML Reports

Databases: Oracle SQL, Database Validation, Query Writing, Joins, CRUD Operations

Methodologies: Agile/Scrum, Behavior-Driven Development (BDD)

Frameworks: Hybrid Framework, Data-Driven Framework, Page Object Model (POM)

PROFESSIONAL EXPERIENCE

Senior Systems Engineer – QA Automation | Infosys Limited

November 2021 – Present

Environment: Selenium WebDriver, Java, TestNG, REST Assured, Postman, Maven, Jenkins, Git, GitHub, JIRA, Oracle SQL, Azure DevOps

- Designed, developed, and maintained scalable Selenium WebDriver automation frameworks using Java, TestNG, and Page Object Model (POM), improving code reusability and reducing maintenance effort by 30%.
- Executed functional, regression, smoke, sanity, integration, and end-to-end testing across web and API layers, reducing post-release defects by 25%.
- Built REST API automation test suites using REST Assured and Postman, validating 100+ REST endpoints through request/response validation, JSON payload validation, status code verification, and database validation, eliminating 60% of manual API testing effort.
- Integrated Selenium and REST Assured automation suites into Jenkins CI/CD pipelines, enabling automated execution after every code commit and reducing deployment turnaround by 20%.
- Participated in all phases of SDLC and STLC by collaborating with developers, business analysts, and product owners to analyze requirements, review user stories, and ensure software quality throughout the testing lifecycle.
- Managed the complete defect lifecycle in JIRA, including defect logging, triaging, retesting, and closure of critical issues.
- Performed test planning, test case design, test execution, traceability matrix creation, and Oracle SQL database validation to ensure 100% requirement coverage, data integrity, and business rule compliance for every release.

KEY PROJECTS

Microsoft Dynamics CRM Automation Testing— Microsoft & Consumer CRM Platform

Infosys Limited | Selenium WebDriver, Java, TestNG, Jenkins, JIRA | 2022 – Present

- Designed comprehensive test plans, test suites, and traceability matrices covering multiple CRM modules and lines of business — ensuring 100% functional and regression coverage.
- Automated 300+ test scenarios using Selenium WebDriver and TestNG, reducing regression cycle time by 40% and enabling a faster, more reliable release cadence.
- Applied Page Object Model (POM) design pattern, improving framework maintainability and enabling cross-module reuse.
- Integrated test suites into Jenkins CI/CD pipeline for continuous automated testing on every code push.

3D Jewellery Rendering Application — E-Commerce QA

Infosys Limited | Selenium WebDriver, Java, TestNG, JIRA, JSON | 2022 – 2023

- Designed JSON-based test configurations to validate positive and negative rendering workflows across multiple browsers and devices.
- Automated UI test cases with Selenium WebDriver and TestNG, improving test execution efficiency by 50% and expanding regression coverage.
- Performed cross-browser and cross-device compatibility testing, ensuring consistent rendering behavior across all target platforms.
- Led end-to-end UAT and production validation cycles, achieving zero critical issues at go-live.
- Managed full defect lifecycle in JIRA — logging, retesting, and driving resolution within sprint timelines.

Healthcare Patient Portal — BDD Cucumber Automation Framework

Infosys Limited | Selenium WebDriver, Java, BDD Cucumber, TestNG, Jenkins, JIRA | 2021 – 2022

- Designed and implemented a BDD test automation framework using Cucumber and Gherkin, enabling business stakeholders to review and contribute to test scenarios directly.
- Automated 150+ end-to-end scenarios covering patient registration, appointment booking, and medical records using Selenium WebDriver and Cucumber.
- Applied Page Object Model (POM) design, cutting code duplication by 45% and significantly improving framework scalability and maintainability.
- Integrated Cucumber HTML and Extent Reports into Jenkins pipeline, delivering real-time dashboards and failure traceability for QA and development teams.
- Achieved 95%+ automation coverage on critical user journeys, reducing manual QA effort by 50% across smoke, regression, and sprint-end test cycles.

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900) – March 2024

Credential ID: 9AD8250381C7CFB2 | Cert No: 260A0E-43F3F7

EDUCATION

Bachelor of Technology (B.Tech) – CIVIL ENGINEERING

MVGR College of Engineering, Vizianagaram | Graduated July 2021 | CGPA: 8.9 / 10.0

ADDITIONAL INFORMATION

Languages: English (Professional Proficiency), Telugu (Native) | Availability: From 28 July 2026

Work Authorization: India
